NCR SelfServ™ 25

Through-the-wall Cash Dispenser

Do you want your self-service network
to be as versatile as possible?

YES

A small footprint that delivers outstanding accessibility, efficiency and versatility

The NCR SelfServ 25 is an exterior through-the-wall and vestibule ATM with a small footprint and complete hole-in-the-wall compatibility, ideal for locations where space is at a premium. Offering cash dispense and a range of revenue-generating services, the NCR SelfServ 25 will deliver your brand to the broadest possible audience in the broadest possible range of locations.

- **Redefined availability**

  Real availability is about delivering the transactions that consumers want, where and when they need them. With new "self-healing" technology, easy-to-use service lead-through application, and front, rear and side service access, NCR SelfServ redefines availability.

- **Informed manageability**

  NCR SelfServ provides best-in-class data for network management. Clear visibility to configurations, software versions and the activity levels of each module results in more accurate, timely management decisions and operational excellence.

- **Committed responsibility**

  Low-energy LED lighting, 25% less cabling and reduced requirements for on-site service visits are just some of the ways we've lowered the carbon footprint of each ATM. NCR SelfServ will be a valuable asset in achieving the environmental goals for your business.

- **Intuitive usability**

  NCR SelfServ enables consumers, cash-in-transit companies, branch staff and service engineers to become experts after the very first use, resulting in better operational efficiency, staff utilization and consumer satisfaction.

- **Intrinsic security**

  Incorporating a unique protected USB architecture and a range of antifraud and physical security solutions, NCR SelfServ reduces fraud risk and maintains the integrity of your self-service channel for you and your customers.
